

The GraphiStudio Wedding Book

The Ultimate Wedding Photography Presentation.

Modern Technology and Traditional Craftsmanship. Produced in Italy by dedicated Craftsmen, *GraphiStudio's* Clients include The Vatican & The London Art Gallery. I have sample sets for you to view containing Weddings I have photographed. The prices I quote are not just for an Album, see below. Collections can be tailored to suit your requirements.

A pre Wedding consultation

When you can view the available Collections and discuss the various options available. I can offer you a free practice session before your Wedding to help you feel more comfortable in front of the camera. I highly recommend you taking advantage of this. Please ask for more details

My Style and Presentation.

Please remember, when you book Julie Warner as your Wedding Photographer it will be because you like her photographic style and artistic presentation.

Your Wedding Day.

I can start with the Bridal preparation and stay with the Wedding to the First Dance, depending on the Collection you have chosen. Between the Ceremony & Wedding Breakfast we will slip away, to capture those "Special" personal Photographic moments. This is the only time we will not have other people with us. You need to be relaxed and not feel like you are in a goldfish bowl with an audience looking on. This is your day and it will go so quickly. When you look at your Wedding Book at your Silver Anniversary you will be so pleased you spent those precious personal moments with your *GraphiStudio* Preferred Photographer. I suggest a minimum one and a half hours between end of Ceremony and Wedding Breakfast for most *GraphiStudio* style Weddings.
